CAREER OBJECTIVE

MERN Stack Developer focused on building web applications with React.js and Next.js. I enjoy team collaboration and am committed to writing clean code while constantly learning new industry standards.

TECHNICAL SKILLS

- **Frontend & Design** : HTML, CSS, Tailwind CSS, JavaScript, React.js, Next.js, Firebase, Better Auth, Responsive UI.
- **Backend** : Node.js, Express.js, MongoDB, REST APIs, JWT.
- **Tools & other** : Git, GitHub, Figma, Vercel.
- **Learning** : TypeScript, Redux, TanStack Query

PROJECTS

1. IdeaSpark

[Live Site](#) | [Client](#) | [Server](#)

Technologies : Next.js, Tailwind CSS, Better Auth, Express.js, MongoDB, Mongoose, Zod, Responsive UI.

Key Features :

- Integrated Better Auth and JWT to Secure Private Routes and Protect All User Data
- Built Full-CRUD Platform for Seamless Idea Management, User Profiles, and Comments
- Implemented Strict Zod Validation with Mongoose to Ensure Robust Backend Data Safety

2. SunCart (Summer Essentials Store)

[Live Site](#) | [GitHub](#)

Technologies : Next.js, Tailwind CSS, Better Auth, MongoDB, Responsive UI.

Key Features :

- Developed a summer-themed responsive e-commerce UI with polished product browsing experience
- Implemented secure user authentication and registration using Better Auth with MongoDB
- Built user profile management with the ability to update personal information post-login

3. KeenKeeper (friendship management web app)

[Live Site](#) | [GitHub](#)

Technologies : Next.js, Tailwind CSS, Recharts, React Hot Toast, Responsive UI.

Key Features :

- Tracked call, message, and video call interactions per friend with localStorage persistence and sortable history
- Visualized communication activity using Recharts — displaying call/message/video counts per contact in interactive charts
- Built detailed friend profile pages with a clean, responsive UI and real-time toast notifications

4. Payoo (Mobile Banking Web App)

[Live Site](#) | [GitHub](#)

Technologies : HTML5, Tailwind CSS, JavaScript, localStorage, Responsive UI.

Key Features :

- Simulated core banking features — cash deposit, cashout, bonus rewards, and utility bill payment — using pure JavaScript
- Persisted all transaction and balance data with localStorage, enabling a stateful experience
- Built a fully responsive mobile-first UI replicating real banking app interactions with zero frameworks

EDUCATION

2023

BBA in Accounting at National University of Bangladesh | CGPA- (3.25)

LANGUAGE

- ✓ Bangla - Native
- ✓ English - Conversational
